IN THE SPECIFICATION:

Please amend the paragraph at page 5, lines 7-11 of the specification as shown below, in which the changes are indicated with strikethrough for deleted terms and/or with underscoring for added terms.

Paragraph at Page 5, Lines 7-11

For the interlayer insulation film, the dielectric constant is preferably less than or equal to 3.5.

The coating liquid for forming this kind of film is, for example, organic SOG or inorganic SOG.

For the organic SOG, organic SOG having carbon content of 5 to 25 atomic ~~weight~~ % is preferable, and the carbon content being more preferably 8 to 20 atomic ~~weight~~ %.
